

## How do I un-install MyBusiness correctly

### How do I un-install MyBusiness correctly

- **Make sure MyBusiness software is closed.**

1. Click Start; go to Settings, then Control Panel
2. In the new window, double-click Add/Remove Programs.
3. From the list of programs that appear, select MyBusiness OR Complete Manager OR NWbusiness Software and click uninstall.
4. Please make sure that no MyBusiness packages are still in this section.

Once finished, close all open windows.

You need to find where the original program was installed. However, it is generally on local disk (C) in the Program Files.

1. Double click on My Computer
2. Double click on C (local drive)
3. Double click on Program Files.
4. Right click on MyBusiness OR Complete Manager OR NWbusiness Software and delete this.

You have now uninstalled the programme.
